**‘Knowledge without Wisdom has no value. Wisdom is something which is needed to make meaningful choices in life’**

In times of pandemic, I appreciate the innovative efforts taken by the educators to keep the learning process going for the children. I am delighted to see that the present scenario has unveiled a new approach- where children are connecting their education with Practical life. They are not only gaining conceptual understanding with the help of technology but are also developing a lot of skills which are making them self- dependent. I would urge all the stakeholders in educational fraternity to nurture & polish the talents of the children as today’s market is full of opportunities for them. I also urge the educators to go for different capacity building programmes to upgrade themselves as they have to deal with the growing demands of highly talented & intellectual children.

In this pandemic we should all stand united & help those who are standing in front to fight against this deadly virus, at the same time keep abiding by the rules.

## A Message from Principal’s Desk

*‘Rise above the storm & you will find the sunshine’*

As we all know that we are collectively facing a Pandemic threat that is sweeping across the humanity beyond oceans and borders and there is no certainty when we will come out of the current situation. This is a crucial time for all of us to remind ourselves that, closures should not impact our life & continuity of learning should go on.

Always take pride on acknowledging your creativity. Remember that, we have created a much stronger sense of Community & we feel happy for it. We are breaking the self designed boundaries & reaching out to everyone to check in. Never forget to be Grateful for everything that you have in your life as Good times give us happiness, Difficult times give us lessons.

## My Experience of Interactive Live Online Classes

Every challenge in our life gives us some opportunity which can be effectively utilized to gain something new. The lockdown, challenge also opened an opportunity to learn with the online classes. This was a smart step by the management and teachers of SSPS that helped us in having uninterrupted studies even when we were at our homes. It was a wonderful initiative by the teachers who have put in their best efforts to help us understand the subjects via interactive classes. I request to upload the videos of live classes on YouTube for future reference.

## हे ईश्वर

आज का टाईम बहुत है मुश्किल  
धरती पर आया है एक दानव  
फैला रहा है वो बिमारी  
डरा हुआ है हर एक मानव  
बिमारी को हमें भगाना है  
अपने घर पे ही रहकर  
साबुन से हाथ धोकर  
हिम्मत से लडकर दिखाना है  
दादा दादी,मम्मी पापा,सब बड़ो की  
हमें मदद है करनी  
पूरे देश और दुनिया को बचाने की  
रोज ईश्वर से करनी है विनती

Oh God! The Exams are coming near,  
All children have so much fear  
Learn this, learn that,  
We to learn all subjects,  
Nothing is clear,  
Because exams are near.  
Study all day, study all night,  
because exams are coming to fight.  
So much tension,  
but no attention.  
We need to be successful,  
but also stressful.  
Everything creates fear,  
Because exams are near.

## My Learning during PANDEMIC

I am a little boy of Class - II, I like to spend time with my family. All my teachers are very nice to me. Suddenly one day I got to know things are going wrong in the world, I heard about COVID-19. My father told me about money saving. Earlier I got angry, but he explained people around the world are unable to get food. So now I am saving money and only buying things that are essential for living.

### I LOVE & RESPECT MY PRIME MINISTER

We all know that elections take place after every five years in our country. Modiji has locked full country in this pandemic of COVID -19, this is not a small step and I fully understand and agree that it was a smart move from him to keep us all safe & protected. I believe that more than 78% population will cast their votes in favour of our Prime Minister as he possess the necessary leadership skills. I pray to GOD for his well being. According to me, MAGNIFICENT IS MODIFICENT which also describes Modi as an efficient leader who can bring glory to our nation.

### EQUALITY

No matter black or white,  
Tall or short in height,  
It is our birthright to be equal.  
No matter what gender you are,  
Lives in land near or far  
It is our birthright to be equal.  
Don't be in a prejudice,  
About people of distinct lands,  
Let's all hold our hands, because,  
It is our birthright to be equal  
No matter what religion you from,  
No matter what caste you from  
Because!  
It is our birthright to be equal.  
Now stop to discriminate,  
That's what the public hates  
Because!  
It is our birthright to be equal.

### Covid -19: An unwanted guest

This pandemic came like an unwanted guest,  
And for humans , it's a kind of a great test.  
Never underestimate it,  
Because it can make families compact.  
Maintain social distance,  
Or it may erase your existence.  
You will be safe if you stay at home,  
If you don't believe me, search on Google chrome.

### MY MOM'S BED TIME STORY

I have a special interest in listening to the bed time stories by my Mom. .One day she narrated me a story of a poor man who was highly skilled. I got really inspired after listening to the story as i learnt that every person has some unique quality, it's only that we need to identify it.

The story goes like this. One day there was a brave King who could not see from the left eye and was lame with his left leg. One day, he announced that whosoever will make his beautiful portrait will be rewarded greatly. Many talented painters tried their hands but couldn't satisfy the king. One day a poor man approached the King and expressed his desire to make King's portrait. He even requested to give 2 days' time. The king agreed to it and poor man returned after 2 days with a beautiful painting. Everyone in the court was surprised to see the beauty of it. He had shown the king sitting on a horse with a sword in his hand. All the courtiers applauded after seeing the painting. The king was very happy and gave a bag of gold coins to him in reward. The only difference in his painting was he had shown the right side pose of the king . Moral : We should always look for positives in every person.

**देश को जीताना है**

देश को जीताना है, कोरोना को भगाना है  
तिरंगे को ऊँचा उठाना है, घर पर ही रहना है,  
सोशल डिस्टेंस बनाना है,

देश को जीताना है, कोरोना को भगाना है  
हाथों को बार-बार धोना है,

मास्क भी लगाना है,  
लॉकडाउन को अपनाना है,

देश को जीताना है, कोरोना को भगाना है  
भारत माँ का मान बढ़ाना है,

देश को कामयाब बनाना है,  
मोदी का साथ निभाना है,

देश को जीताना है, कोरोना को भगाना है।

**SCHOOLS ARE CLOSED**

Our school is closed...  
Our school in the future will be very bright and cool.  
Because Teaching in my school is the best tool.

For dear teachers ,  
We are cute kids at home.  
No bags, no books,  
no pencils, no erasers will we hold.  
Everything would be on laptops, smart TVs and phones  
And we will be children smart and bold.

*In this time when the whole world is struggling with COVID-19 and everybody is in lockdown, I tried to pen down my feelings for the first time in the form of a short POEM.*

*The title of my poem is "Kindness" which is the need of an hour in these difficult times.*

**Kindness**

Kindness is the act,  
That leads to the fact  
Doing something good,  
Can help in lifting someone's mood

Turning the frown into a smile,  
Can fill sparkle in one's eye for a while.

Lending helping hand to the person in a pain,  
Never goes in vain.

As ALMIGHTY above,  
Always shower his love  
To the children whose hearts are filled with compassion  
And actions are always full of affection.

# 'MALIT' - A blend of Mathematics & Literature

Among the blended words, a subject 'MALIT' is very unfamiliar subject for everyone, this is because this word describes the relationship between two main subjects of the modern era.

## Mathematics and Literature

Topic—(Destiny, Hardwork and Success)

According to the figure the two lines are **Hardwork** and **Success** and the angle between them is regulated by an operator called **Destiny**. This is how we connect **Maths** and **Literature** together and now the explanation for this subject is as follows :—

**Line of Success** is independent, also success is something which a person cannot handle in other words we can say that a person cannot decide whether he would achieve success or not.

**Line of Hardwork** is the only thing which a person have in its hand. Struggle and Hardwork is the only key to success and through this key we can win laurels in our life.

**An operator of Destiny** it is an important factor in achieving success but not the supreme factor on which success rely. It is a non uniform factor and it may differ person to person.

So according to '**MALIT**' a person should firmly hold the line of **Hardwork** to enjoy the grace of **Success**.

## I am a HAPPY CHILD

My house is RED; a little house  
A Happy child am I  
I laugh & play the whole day  
long  
I hardly ever cry  
I have a tree, a green & brown  
tree  
To shade me from the sun  
And under I often sit  
When all my play is done.
